Damages Awarded.

In the Federal Court at Richmond last week, Levi Midcalf was allowed \$1,450 for damages to land in the construction of Lock No. 9 on Kentucky river. Mrs. Georgia J. Combs was allowed \$200 for same purpose.

Insane From Fear of Hell.

Archer Harmon, a prominent and substantial Boyle county farmer, has gone violently insane and sent to the asylum. Five weeks ago he came to the conclusion that he was going to hell, and worried until he became a raving maniac. He demolished everything in sight.

A Negro Lynched.

At Elizabethtown, Harlan Buckles, the negro who killed Deputy Marshal Reid at a negro picnic, was taken from jail by a mob of 40 men and swung up to the limb of a tree where he was left swinging. The negro had been sentenced to the penitentiary for life, but the mob thought he should be hung.

Coon Ate Thirty Dollars.

A clothing firm of Danville, had on exhibition in a front show window a real live coon. The animal was confined in an ordinary wire cage. He became tired of imprisonment and freed himself. In the window at various distances apart were fifty one dollar bills, which were offered to the person guessing nearest the coon's weight. When found, the coon was devouring the greenbacks with great avidity. He ate thirty dollars.

Kentucky an Oil Center.

Mr. Pringle, representing the Standard Oil Company, who is a visitor in the city, says his company is now paying \$200,000 per year on leases of oil land in Kentucky, and that this State is undoubtedly the coming oil center of the world.—Lexington Leader.

On one side of the Kentucky

river near High Bridge lives a man named Joe Curd. On the other side of the stream lives another man named Joe Curd, he being a nephew of the Joe Curd living on the opposite side of the river. Many years ago they married sisters, and both now have grandchildren. A man out here offers a chronicle to any one who can unravel the relationship existing between the grandchildren of the two Joe Curds.

From the table of Federal statistics in which 1,435 incorporated towns of Kentucky for 1901 were reported, it is found that Shelbyville is the most unhealthy city in the State, the death rate there being 20.32. Central City shows the lowest rate, it being but 1.88. Lexington has a death rate of 14.13; Louisville 16.27.

Startling, But True.

"If every one knew what a grand medicine Dr. King's New Life Pills is," writes D. H. Turner, Dempseytown, Pa., "you'd sell all you have in a day. Two weeks' use has made a new man of me." Infallible for consumption, stomach and liver trouble. 25c at Swann-Day Lbr. Co.

A Fair Proposition.

When taxes are paid the merchant is in the front rank. When the subscription paper is passed he is on it first and the biggest. When tickets for church or charity are sold he is the heaviest purchaser. When public enterprise is to be carried, he gets to carry the burden. Now, when you have to buy things, don't you think you ought to spend your money with the home merchant?—Exchange.

At Richmond, Mrs. James Brown, wife of a cooper at the Hume Cooperage drank carbolic acid with fatal effect.

A Startling Surprise.

Very few could believe in looking at A. T. Hoadley, a healthy, robust blacksmith, of Tilden, Ind., that for ten years he suffered such tortures from Rheumatism as few could endure and live. But a wonderful change followed his taking Electric Bitters. "Two bottles wholly cured me," he writes "and I have not felt a twinge in over a year." Asleep Amid Flames.

Breaking into a blazing home, some firemen lately dragged the sleeping inmates from death. Fancied security, and death near. It's that way when you neglect coughs and colds. Don't do it. Dr. King's New Discovery for Consumption, gives perfect protection against all Throat, Chest and Lung Troubles. Keep it near, and avoid suffering, death, and doctor's bills. A teaspoonful stops a late cough, persistent use the most stubborn. Harmless and nice tasting, it's guaranteed to satisfy by Swann, Day Lbr. Co. Price 50c and \$1.00. Trial bottles free.

The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is sluggish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little badly. The least degree of friction on the bearings alters the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.
